Chintalapudi, Andhra Pradesh - 534460, India

OBJECTIVE

AI Machine Learning undergraduate skilled in Flutter, Python, AI agents, and full-stack development with experience building real-time and AI-powered applications. Seeking a Software Engineering Internship to contribute to scalable and impactful engineering solutions.

EXPERIENCE

- **Technical Hub**  May 2026 – Present
Full Stack Developer Intern (Flutter) Surampalem, India
 - **CogniVision (AI Vision Aid):** Developed a fully voice-navigable assistive mobile application using **Flutter and Dart** to restore environmental awareness and independent mobility for visually impaired individuals. 
 - **On-Device Edge ML:** Integrated the **Gemini 2.0 Live API** for low-latency visual streaming, paired with optimized **YOLOv8n** and **MobileFaceNet TFLite models** to achieve real-time spatial object tracking and achieved reliable offline face recognition
 - **Technical Presentation:** Collaborated under industry mentorship and **Presented the project at ProjectSpace 8.0 to multiple teams**, demonstrating technical communication and cross-team collaboration.
- **Technical Hub**  May 2025 – June 2025
Full Stack Developer Intern (Flutter) Surampalem, India
 - **Mecha-Connect (Roadside Assistance):** Engineered an on-demand roadside assistance mobile platform using **Flutter and Dart** to streamline emergency support services for vehicle breakdowns and fuel shortages. 
 - **Real-Time Geolocation:** Implemented active background **GPS location tracking** using the **Google Maps API** to instantly match users with nearby verified mechanics, fuel delivery agents, and service providers.
 - **Cross-Team Collaboration:** Worked closely with industry mentors and **presented the project at ISHIP to multiple teams**, demonstrating technical communication and cross-team collaboration.

EDUCATION

- **Aditya Engineering College** Oct 2023 – Present
B.Tech - Artificial Intelligence and Machine Learning Surampalem, India
 - GPA: 8.06/10.00

PROJECTS

- **WorkNow – Job Discovery and Application Management Platform** September 2025 - October 2025
Flutter 3.x, Dart, Animated Bottom Navigation, Material Design Components, StatefulWidget 
 - **Built a production-ready** job search mobile application with dynamic location filtering, processing different job listings across multiple categories with real-time UI updates and **~99% responsive interaction rate**.
 - Designed an end-to-end application workflow featuring multi-step forms, confirmation dialogs, and persistent application tracking, improving user experience metrics with 4-screen navigation flow and zero navigation errors.

SKILLS

- **Programming Languages:** C, Python, Dart (Primary), JavaScript (Working Knowledge)
- **Backend Technologies:** Node.js, Express.js, REST APIs, Mongoose
- **Frameworks & Platforms:** Flutter (Mobile & Web), Firebase
- **Databases:** MongoDB, MySQL, Oracle SQL
- **Cloud & DevOps:** Git
- **Computer Science Fundamentals:** Data Structures and Algorithms (Arrays, Strings, Hashing, Two Pointers, Recursion), Time and Space Complexity
- **Developer Tools:** VS Code, Android Studio, Visual Studio, Postman
